E0412	EMULPHARMA 9EM	Laureth-9	O/W non ionic co - Emulsifier - Active Ingredient	Non-ionic emulsifying and solubilizing agent for O/W systems with a perfect diffusion of the active ingredients.	■		■				■
E0447	EMULPHARMA 15	C12-20 Acid PEG-8 Ester	O/W non ionic Emulsifier	O/W non-ionic emulsifying system, for cosmetic and pharmaceutical creams and lotions.			■			■	■
E0429/P	EMULPHARMA 90*	Sorbitan Olivatate	W/O non ionic Emulsifier	W/O non ionic emulsifier (PEG-Free) of natural origin. It helps to obtain "heavy" classic W/O emulsions.			■		■	■	■
E0406AI	EMULPHARMA 135	Lauryl Alcohol, C12-C15 Pareth-3, C12-C15 Pareth-3 Phosphate, Myristyl Alcohol, Cyclopentasiloxane	O/W Emulsifier suitable for cold processing	O/W emulsifying system in acid form, clear at room temperature (25-30°C), suitable also for cold processing.		■	■			■	■
E0462	EMULPHARMA ECOTECH*	Polyglyceryl-3 Cocoate	PEG free O/W Emulsifier	PEG free O/W self emulsifier of natural original, suitable for cold processing.			■			■	■
E0409AI	EMULPHARMA IXL	Ceteth-2, Cetareth-25, Lauryl Alcohol, Cyclopentasiloxane, Myristyl Alcohol	O/W Emulsifier for liquid crystal systems	Emulsifying system for O/W cosmetic creams and lotions, stabilized by a lamellar liquid crystalline phase. Using low percentage, a wide range of polar substances can be emulsified obtaining products with attractive surface gloss.		■	■			■	■
E0408A	EMULPHARMA PG20*	Polyglyceryl-2 Diisostearate	Emulsifier for W/O PEG free emulsions	Non ionic PEG-free emulsifier for light, easily spreadable, fresh, non greasy W/O emulsions with upto 80% water phase. Suitable for cold processing. Particularly suitable for sun care, "protective" and baby care products.			■			■	■
E0409	EMULPHARMA V	Tricetareth-4 Phosphate, Lecithin, Vitis Vinifera (Grape) Seed Oil	O/W Emulsifier for liposomes	Non ionic O/W emulsifier for creams and fluid emulsions with liposomal preparations.			■				■

Code	Trade Name	INCI Name	Function	Description	Toiletries	Hair Care	Skin Care	Perfume & Fragrance	Decorative Cosmetics	Baby Care	Treatment Cosmetics
RV1074C	EMULVAMA AGC*	Sodium cocoyl Glutamate,sodium Cocoyl Hydrolized Wheat protein, Disodium Capryloyl Glutamate, potassium Cocoyl PCA	PEG free O/W Emulsifier	100% vegetable emulsifier with superior skin compatibility, suitable for cold processing.			■			■	■
RV1059C	EMULVAMA AGW	Glyceryl Stearate, Cetearyl Alcohol, Stearic Acid, Sodium Lauryl Glutamate	PEG free O/W Emulsifier	Self emulsifying base derived from vegetable raw material.			■			■	■

Code	Trade Name	INCI Name	Function	Description	Toiletries	Hair Care	Skin Care	Perfume & Fragrance	Decorative Cosmetics	Baby Care	Treatment Cosmetics
R0062	RESPLANTA ALM	Almond Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Almond oil (<i>Prunus dulcis</i>) with the classic lubricant, emollient, and conditioning properties of almond oil. Suitable for the formulation of hair care and toiletry products, oils, creams, milks and lotions.	■					■	
R0022	RESPLANTA BABASSU	Babassu Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water soluble Babassu oil (<i>Orbignya oleifera</i>) with the classic lubricant, emollient, nourishing, sebum regulating and elasticizing properties of babassu oil. Suitable for the formulation of hair care and toiletry products.	■	■				■	
R0111	RESPLANTA COCONUT	Coconut Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Coconut oil (<i>Cocos nucifera</i>) with the classic lubricant, emollient, nourishing and conditioning properties of coconut oil. Suitable for the formulation of hair care and toiletry products.	■	■	■			■	
R0112	RESPLANTA COTTON	Cotton Seed Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Cotton oil (<i>Gossypium herbaceum</i>) with the classic emollient brightening and conditioning properties of cotton oil. Suitable for the formulation of hair care and toiletry products.	■	■	■			■	
R0103	RESPLANTA GRAPE	Grape Seed Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Grape Seed oil (<i>Vitis vinifera</i>) with the classic emollient, antioxidant and elasticizing properties of grape seed oil. Suitable for the formulation of hair care and toiletry products, oils, milks and lotions.	■		■			■	
R0065	RESPLANTA HEMP	Cannabis Sativa Seed Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Hemp oil (<i>Cannabis sativa</i>) with the classic emollient, antioxidant, and elasticizing properties of hemp oil. Suitable for the formulation of hair care and toiletry products, creams.	■		■			■	
R0061	RESPLANTA JOJOBA	Jjoba Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Jojoba oil (<i>Buxus chinensis</i>) with the classic emollient, moisturizing, skin soothing, purifying, sebum regulating and elasticizing properties of jojoba oil. Suitable for the formulation of hair care and toiletry products, liquid soaps, tonics.	■		■			■	
R0079	RESPLANTA KARITE'	Shea Butter Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Shea butter (<i>Butyruspermum parkii</i>) with the classic emollient, brightening, and softening properties of shea butter. Suitable for the formulation of hair care and toiletry products, creams, milks and lotions.	■	■	■			■	
R0079FT	RESPLANTA KARITE' FT	Shea Butter Glycereth-8 Esters	Emollient/ Moisturizer	Fairtrade version of Resplanta Karitè.  Contains fairtrade ingredients.		■			■	■	
R0063	RESPLANTA MAC	Macadamia Seed Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Macadamia oil (<i>Macadamia ternifolia</i>) with the classic emollient, softening, skin soothing, purifying and nourishing properties of macadamia oil. Suitable for the formulation of hair care and toiletry products.	■	■	■			■	
R0066	RESPLANTA MAIS	Corn Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Corn oil (<i>Zea mays</i>) with the classic lubricant, emollient, and nourishing properties of corn oil. Suitable for the formulation of hair care and toiletry products.	■	■	■			■	
R0095	RESPLANTA OLEA	Olive Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Olive oil (<i>Olea europea</i>) with the classic emollient, softening elasticizing and nourishing properties of olive oil. Suitable for the formulation of hair care and toiletry products, oils.	■	■	■			■	

RES *Planta*

water soluble oils

Code	Trade Name	INCI Name	Function	Description	Toiletries	Hair Care	Skin Care	Perfume & Fragrance	Decorative Cosmetics	Baby Care	Treatment Cosmetics
R0091	RESPLANTA PALM	Palm Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Palm butter (<i>Elais Guineensis</i>) with the classic emollient, lubricant and conditioning properties of palm butter. Suitable for the formulation of hair care and toiletry products.	■	■	■			■	
R0115	RESPLANTA PEACH	Peach Kernel Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Peach oil (<i>Prunus persica</i>) with the classic lubricant, emollient, elasticizing and nourishing properties of peach oil. Suitable for the formulation of hair care and toiletry products, creams.	■		■			■	
R0068	RESPLANTA PGA	Avocado Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Avocado oil (<i>Persea gratissima</i>) with the classic emollient, elasticizing, nourishing and conditioning properties of avocado oil. Suitable for the formulation of hair care and toiletry products, oils, creams, milks and lotions.	■		■			■	
R0087	RESPLANTA RICE	Rice Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Rice oil (<i>Oryza sativa</i>) with the classic emollient, antioxidant, brightening, sebum regulating, nourishing and conditioning properties of rice oil. Suitable for the formulation of hair care and toiletry products, oils.	■	■	■			■	
R0064	RESPLANTA SMO	Sesame Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Sesame oil (<i>Sesamum indicum</i>) with the classic emollient, brightening and nourishing properties of sesame oil. Suitable for the formulation of hair care and toiletry products, oils.	■	■				■	
R0109	RESPLANTA SOJA	Soybean Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Soybean oil (<i>Glycine Soja</i>) with the classic emollient, moisturizing, and nourishing properties of soybean oil. Suitable for the formulation of hair care and toiletry products, creams, milks and lotions.	■		■			■	
R0105	RESPLANTA SUN	Sun Flower Seed Oil Glycereth-8 Esters	Emollient/ Moisturizer	Water dispersible Sun Flower seed oil (<i>Helianthus annuus</i>) with the classic emollient, softening and elasticizing properties of sun flower seed oil. Suitable for the formulation of hair care and toiletry products, oils.	■	■				■	
R0067	RESPLANTA TRITICUM	Wheat Germ Oil PEG-8 Esters	Emollient/ Moisturizer	Water dispersible Wheat Germ oil (<i>Triticum vulgare</i>) with the classic emollient, softening, skin soothing, nourishing and eudermic properties of wheat germ oil. Suitable for the formulation of hair care and toiletry products, oils, creams, milks and lotions.	■	■	■			■

concentated emulsion

Code	Trade Name	INCI Name	Function	Description	Toiletries	Hair Care	Skin Care	Perfume & Fragrance	Decorative Cosmetics	Baby Care	Treatment Cosmetics
E0442/S2	RESCONCEPT A-2	See TDS	Concentrated emulsion	Concentrated fluid emulsion developed considering basic formulation needs. Can be used to lower the total formula cost and produce competitive entry level cosmetic products with excellent sensorial properties.			■		■	■	■
E0434/FS2	RESCONCEPT CARE-2	See TDS	Concentrated emulsion	Concentrated fluid emulsion with excellent skin feel, thanks to the emollient and skin nourishing properties of Diglycerin and Triisostearin. Use low percentages to develop products for delicate skin.			■		■	■	■
E0435/S	RESCONCEPT PGF	See TDS	Concentrated emulsion	PEG free concentrated emulsion developed to facilitate the production of modern, innovative cosmetic products that meet current market trends. It is possible to obtain soft and silky textured products even at low temperatures.			■		■	■	■
R0194	RESCONCEPT SUN HP	See TDS	Concentrated emulsion	Concentrated fluid emulsion for high SPF products. With an initial SPF of 50+, the Resconcept submicron technology enhances the stability of milks, sprayable lotions, bag-on-valve fluids. The product can be used alone, diluted in a cold process or thickened with polymers for the easy formulation of a full sun care line.			■		■	■	■
R0410	RESCONCEPT SUN PLUS PEG FREE	See TDS	Concentrated emulsion	PEG free, concentrated fluid emulsion for manufacturing different types of sun care products. With an estimated initial SPF>30 this product acts as a building block to obtain lower SPF through a simple dilution. It can be personalised with the addition of oils, active ingredients, perfumes and preservatives. It can be added to day creams to give a protection factor. Also for US market (starting from 60% dilution).			■		■	■	■
R0195/2	RESCONCEPT SUN PLUS-2	See TDS	Concentrated emulsion	Concentrated fluid emulsion for manufacturing different types of sun care products. With an estimated initial SPF>30 this product acts as a building block to obtain lower SPF through a simple dilution. It can be personalised with the addition of oils, active ingredients, perfumes and preservatives. It can be added to day creams to give a protection factor.			■		■	■	■

PANTROFINA

active ingredients

Code	Trade Name	INCI Name	Function	Description	Toiletries	Hair Care	Skin Care	Perfume & Fragrance	Decorative Cosmetics	Baby Care	Treatment Cosmetics
D0101	D - FACTOR	Hydrolyzed Glycosaminoglycans	Anti Ageing	Should be used in all moisturizing preparations, nourishing emollient creams, treatment of periorbital small wrinkles, senescent skin preparations. It improves the synthesis of proteins in the subcutaneous connective tissue.			■				■
E0606	EDEMINE	Escin (and) Lecithin	Lipolytic	Should be used for topical treatment of cutaneous defects like cellulite, without secondary irritating effects.			■				■
H0151	HYDRO-K	Galactosyl-fructose (and) Lecithin	Moisturizer	May be used in any preparations claiming a moisturizing activity.	■		■			■	■
L0220/NC	LACTILGLUTAMMATO	Glycerin, Sorbitol, Sodium PCA, Sodium Lactate, Water, Caprilyl Glycol	Moisturizer	Preservative free moisturizing complex with protective properties.		■	■			■	
L3023	LIPOLYSE HCC	Carnitine hydroxycitrate	Firming/Tensor	Should be used for topical treatments of the cutaneous beauty problems like cellulite, without secondary irritating effects. It is used for its lipolytic properties.			■				■
B0170	PANTENOLO GLICEROLO	Panthenol, Glycerin	Moisturizer Humectant Active ingredient	Panthenol in fluid form, easy to use and soluble in cold water. Active ingredient for cosmetic use with excellent moisturizing properties.		■	■		■	■	
B0165	PANTENOLO GLICOLE	Panthenol, Propylene Glycol	Moisturizer Humectant Active ingredient	Panthenol in fluid form, easy to use and soluble in cold water. Active ingredient for cosmetic use with excellent moisturizing properties.		■	■		■	■	
P0701	PANTROFINA BETA	Stearyl Glycyrretinate	Active ingredient	Liposoluble cosmetic active ingredient with efficient skin soothing and anti-reddening properties.	■		■			■	■
P0710	PANTROFINA HVP	Hydrolyzed Wheat Protein	Active ingredient	Proteinic hydrosoluble derivative with moisturizing, softening and substantive properties..		■					
P0700	PANTROFINA NMF	Sodium PCA, Mel, Urea, Glucose, Fructose, Citric Acid, Hydrolyzed Gag, Glycine, Lysine	Active ingredient	Water soluble reconstructed natural moisturizing factor (NMF).		■					
I0511	PANTROFINA OLV*	Olea Europaea (Olive Oil) Unsaponifiables	Moisturizer Active Ingredient	Liposoluble functional ingredient with strong emollient and softening properties, rich in phytosterols from olive and natural squalene.	■	■	■		■	■	■
P0712	PANTROFINA PC*	Diglycerin, Pinus Pinaster	Active Ingredient	Antioxidant active ingredient using diglycerin as a carrier to facilitate its use in cosmetic formulations. Helps to maintain skin moisture and elasticity. Free radical scavenger and anti-age active.			■				
P0780	PANTROFINA SLIM	Rhus Coriaria Leaf/stem extract, (requested) Acetyl carnitine HCL	Lipolytic	Slimming complex based on Rhus Coriaria, a native plant of the Mediterranean which is rich in antioxidants.			■				■
P0711	PANTROFINA VMF	Urea, Glucose, Sodium PCA, Sorbitol, Fructose, Hydrolyzed Wheat Protein, Glycine, Lysine, etc	Active Ingredient	Classic water soluble natural reconstructed moisturizing factor.			■				■

PANTROFINA

active ingredients

Code	Trade Name	INCI Name	Function	Description	Toiletries	Hair Care	Skin Care	Perfume & Fragrance	Decorative Cosmetics	Baby Care	Treatment Cosmetics
P0760	PANTROFINA WHITE	Methyl Dihydroxybenzoate, Nicotinamide, Rhus Coriaria Leaf/stem extract (requested), Lecithin, Punica granatum Fruit extract	Whitening	<i>Slimming complex based on Rhus Coriaria, a native plant of the Mediterranean which is rich in antioxidants.</i>			■				■
P4760	POLYANION	Gag, Glycoproteins, Sodium DNA, Hydrolyzed Collagen	Active Ingredient	<i>Functional complex for hair, scalp, eyebrow and nail treatment. It helps the nutrient exchange, the local circulation and moisturisation to promote the elimination of metabolic impurities, the regeneration and homeostasis of hair follicle.</i>		■			■		
R0011	RESAPHIN AB	C12-15 Alkyl Benzoate	Emollient/Moisturizer	<i>Fluid ester with excellent solvent properties for UVA and UVB filters.</i>		■	■		■	■	■
R0077	RESAPHIN GTS	Triisostearin	Emollient/Moisturizer	<i>Lipidic component for creams, oils, butters, make up products, with excellent emollient properties. It enriches the lipidic phase and gives a light and smooth skin feel.</i>		■	■		■	■	■
R0020	RESAPHIN ODL	Octyldodecyl Lactate	Emollient/Moisturizer	<i>Ester with emollient properties, leaves skin feeling pleasant, smooth and non sticky.</i>		■	■		■	■	■
R0076	RESASSOL DGL*	Diglycerin, Glucose	Moisturizer	<i>PEG free humectant with moisturizing and softening properties.</i>			■			■	
R0081	RESASSOL DN	Diglycerin	Moisturizer	<i>Ether from glycerol with moisturizing and co-solvent properties.</i>	■		■	■	■	■	■
E0605	RUTIMINE	Rutin (and) Lecithin	Anti Ageing	<i>Free radical scavenger and DNA protector.</i>			■			■	
RV1103C	SILKERINE HL	Sericin	Firming/Tensor	<i>Thanks to its filmogenic-moisturizing and protecting action, is perfect for formulations such as face creams, masks, gels, conditioner and shampoos for damaged hair.</i>	■	■	■			■	■
M1680	TRICOREXINA HYDRO*	Tussilago Farfara Extract, Achille Millefolium Extract, Chinchona Succirubra Extract	Anti hair loss active ingredient	<i>Complex of water soluble vegetal extracts that help reduce hair loss.</i>		■					
RV1231C	VAMACTIVE CR	Carnitine PCA	Moisturizer	<i>At high use level has exfoliating properties without secondary irritating effects. At low percentage of use it has moisturizing activity on the corneocytes.</i>			■				■
RV1177C	VAMACTIVE KIT	Chitosan PCA	Moisturizer	<i>Is a filmogenic, protective and conditioning active product for hair and skin.</i>	■	■	■			■	■
RV1302C	VAMAWHITE GT	Methyldihydroxybenzoate and Hydrolyzed Glycosaminoglycans	Whitening	<i>A whitening and lightening active, added to the properties of D-Factor, without secondary irritating effects.</i>			■				■
